INDEX

Aranha, J. A. P. Second-order horizontal steady forces and moment on a floating body with small forward speed, 39–54

Ardron, M. R. *See* Thurlow, Brooks, Lucas, Ardron, Bhattacharjee & Woodcraft

Bell, P. I. & Soward, A. M. The influence of surface topography on rotating convection, 147–180

Bhattacharjee, J. K. *See* Thurlow, Brooks, Lucas, Ardron, Bhattacharjee & Woodcraft

Bossis, G. *See* Phung, Brady & Bossis

Brady, J. F. *See* Phung, Brady & Bossis

Brooks, B. J. *See* Thurlow, Brooks, Lucas, Ardron, Bhattacharjee & Woodcraft

Camassa, R. *See* Choi & Camassa

Chapman, C. J. Sound radiation from a cylindrical duct. Part 2. Source modelling, nil-shielding directions, and the open-to-ducted transfer function, 367–380

Choi, W. & Camassa, R. Weakly nonlinear internal waves in a two-fluid system, 83–103

Falcovitz, J. *See* Igra, Falcovitz, Reichenbach & Heilig

Farooq, A. & Homsy, G. M. Linear and nonlinear dynamics of a differentially heated slot under gravity modulation, 1–38

Freidberg, J. P. *See* Shajii & Freidberg

Givi, P. *See* Jaberi, Miller, Madnia & Givi

Goodwin, R. T. & Schowalter, W. R. Interaction of two jets in a channel: solution mulitiplicity and linear stability, 55–82

Heilig, W. *See* Igra, Falcovitz, Reichenbach & Heilig

Homsy, G. M. *See* Farooq & Homsy

Igra, O., Falcovitz, J., Reichenbach, H. & Heilig, W. Experimental and numerical study of the interaction between a planar shock wave and a square cavity, 105–130

Jaberi, F. A., Miller, R. S., Madnia, C. K. & Givi, P. Non-Gaussian scalar statistics in homogeneous turbulence, 241–282

Jiménez, J. Algebraic probability density tails in decaying isotropic two-dimensional turbulence, 223–240

Jiménez, J., Moffatt, H. K. & Vasco, C. The structure of the vortices in freely decaying two-dimensional turbulence, 209–222

Kimura, S. *See* Sundström & Kimura

Koch, D. L. *See* Sangani, Mo, Tsao & Kock; Sundararajakumar & Koch

Lucas, P. G. L. *See* Thurlow, Brooks, Lucas, Ardron, Bhattacharjee & Woodcraft

Madnia, C. K. *See* Jaberi, Miller, Madnia & Givi

Miller, R. S. *See* Jaberi, Miller, Madnia & Givi

Mo, G. *See* Sangani, Mo, Tsao & Koch

Moffatt, H. K. *See* Jiménez, Moffatt & Vasco

Phung, T. N., Brady, J. F. & Bossis, G. Stokesian Dynamics simulation of Brownian suspensions, 181–207

Reichenbach, H. *See* Igra, Falcovitz, Reichenbach & Heilig

Sangani, A. S., Mo, G., Tsao, H.-K. & Koch, D. L. Simple shear flows of dense gas–solid suspensions at finite Stokes numbers, 309–341

Schowalter, W. R. *See* Goodwin & Schowalter

Shajii, A. & Freidberg, J. P. Theory of low Mach number compressible flow in a channel, 131–145
